

## 2022 DISTRIBUTION TAX FACTORS PER UNIT - ADVISOR USE ONLY

### NEI Funds

The tax factor figures are used to produce tax receipts for non-registered investors. The tax factors take into account not only the year-end distributions, but any other distributions previously made within the fund's taxation year. For funds that pay monthly or quarterly distributions, the proportion of factor can be applied evenly to each individual distribution made. All distribution amounts below are in Canadian dollars.
